WINNSBORO,
TEXAS**

• **NOW'S THE TIME!**

**Cut your Cost-per-plant
with mechanized
equipment**

**3 GREAT
ADVANCEMENTS
IN NURSERY
EQUIPMENT**

PLANTER

**Cut planting time in half
with this revolutionary machine!**

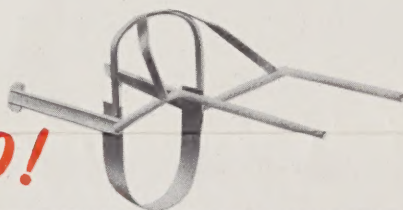

Not only does this amazing planter cut planting costs—it insures absolute uniformity. You get **straight** rows of **even** depth (adjusted to suit your needs) so that plants are in good shape and easy to cultivate.

Made of solid steel, the planter is actually two implements in one. A V-shaped forward piece levels the bed row to a smooth, flat surface. A sharp 20-inch disc roller slits a straight, narrow trench for your nursery stock. Both forward piece and cutting disc are adjustable to any height. Thus your planting trench may be cut to any desired depth.

The equipment may be either horse or tractor drawn. Two sets may be installed on one 2-row tractor. It's easy and quick to attach the planter to your tractor cultivator. Just remove the cultivator feet and insert the shanks of the planting equipment.

ITEM NO. 304: \$35.00

IMPROVED!

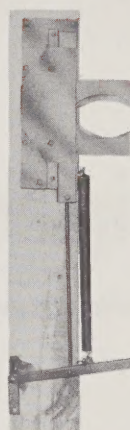

**THE DIGGER AT WORK — Note how deeply it cuts
without effort!**

Make more profit — cut your production costs way down with Russell Wilson's labor-saving equipment. This equipment actually enables you to grow and sell more high class stock at lower cost per plant. Every nurseryman and florist who grows fruit trees, shade trees, shrubs, bulbs, evergreens or rosebushes can have more cash profit on the labor of the workmen he employs.

CUTTING MACHINE

**More than doubles
output per man!**

You've got to see it in action to believe it—but **three** men can do **twice** the work of five with this improved Hardwood Cutting Machine. You can eliminate two men from your crew, yet double production—three can turn out 150,000 cuttings a day! The machine is solid steel throughout, equipped with two cutting blades. Wood is placed between them—the top blade is brought down by pressure of the operator's foot on a pedal. Both hands are free to handle the cuttings. When pedal is released, the top blade is drawn back to starting position by a spring.

ITEM NO. 300: \$28.75

TREE DIGGER

**Glides under roots, loosens
soil in one operation!**

Here is a practical digger for all types of trees and shrubs. Use it for root pruning, too. Bulb growers find it highly successful for digging bulbs.

Works on simple, fool-proof principles. The U-shaped cutting blade, 22 in. across, glides under the roots. Welded to its rear edge is a tilted "apron" which lifts and loosens soil so plants may be lifted out easily.

This sensational tree digger is solid steel throughout. Blade is machined and shaped for greatest ease of operation. Can be adjusted to run shallow for digging shallow roots and vines; or it can be set up quickly and easily to go down and get those deep (tap) rooting trees and shrubs.

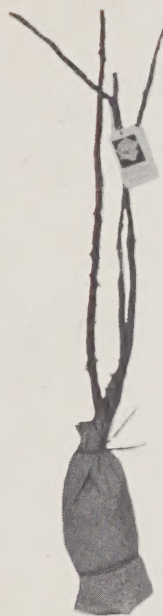

The tree digger is manufactured in models to be pulled by either horse or tractor. Made for tractors either with or without power lift. If you are using a tractor, be sure to give us make and model so you will get the digger with the right dimensions, etc., for quick, easy installation hookup. (Not made for 2-row tractors.)
